

# BROOKLYN FIREPLACE EXTENSION

ASSEMBLY INSTRUCTIONS

## BASE PREPARATION:

### Aggregate Base Foundation:

- 6" deep
- 8" outside perimeter of base
- Compact sub-base soils to 95% of standard proctor
- Compact Aggregate base to 95% of standard proctor

### Zoning Permits:

Before planning your projects, it is important to know about zoning requirements and rules for excavating and building in your area. No matter the size of your project, be sure to attain the necessary permits before starting construction.

### Know What's Below:

Whether you are planning to complete a project yourself or hire a professional; checking with appropriate contacts in your local area before any job can help to ensure smart digging. Homeowners often make assumptions about whether or not they should have their utility lines marked on their properties, but every job that requires digging also requires a call to appropriate contacts in your area.

## PART LIST:

- 48 Pcs of 8"x12"x4"
- 1 PC Flue Liner 12"x12"
