Pleasing, textured garden walls, straight or curved.
Designed with an easy-to-install wedge-shape, this product will enable you to create elegant garden walls and eye-catching planters with straight lines or gracefully-sweeping curves.

Each WedgeStone garden block locks firmly in place, with a built-in locking system, ensuring stability over time. This wall stone’s tapered wedge shape allows for innovation in design, including the curves. Its textured face on both sides offers a pleasing view from all angles of the garden wall.
