

FIRE BRICK

Available in Medium-Duty ranges

Fire Bricks are used to line traditional fireplaces and are being used increasingly to create wood fired ovens in outdoor spaces. We carry Alsey Smithfield Fire Brick from Sandkuhl Clay Works.

Medium-Duty Fire Brick

This is a quality Fire Brick that is recommended for all fireplace brick applications and is certified to conform to medium-duty ASTM specifications. The maximum recommended service temperature of this brick is 2700 F (1482 C). It is available by individual pieces in store or in full-pallet quantities by placing order.

Drop into a [Shaw Retail Centre](#) or one of our [independent dealers](#) to learn more about the full line of masonry supplies available from Shaw Brick.
