

FLUE LINERS

Top quality from Sandkuhl Clay Works

When it comes to Clay Flue Liners, we have only top quality Flue Liners for sale. That's because you don't want to take chances on an inferior quality product inside your chimney.

Shaw Brick has partnered with Sandkuhl Clay Works to bring you traditional square and rectangular Clay Flue Liners. You can have confidence in knowing that Sandkuhl is a fourth-generation family business that has been manufacturing terra cotta clay products since 1912.

Clay Flue Liners with quality baked in

One look and you will appreciate that Sandkuhl Flue Liners have uniform dimensions and clean end cuts. Their composition includes fire clay for maximum heat resistance and less than 3% absorption which prevents freeze-thaw damage. Plus their smooth, dense inner walls minimize creosote build-up. They meet the ASTM C-315 Clay Flue Liner Standard.

All sizes are available in standard 2' length. Selected sizes are available in a shorter 1' length.
