

KEYSTONE

Perhaps the most definitive interlocking paver

With its distinctive key shape, the KeyStone Paver is perhaps the most interlocking of interlocking pavers, providing a positive interlock like no other.

A favourite with designers, landscapers, and homeowners alike, Key Stone has been part of our paver product line for many years. Stronger and more durable than other paving stones, it is ideal for high traffic areas and heavy loads.

The custom look of the Key Stone paver will convey a feeling that will welcome family and friends. Add a few touches of natural landscape and you have created a beautiful driveway, entrance, patio or personal hideaway.

These interlocking pavers are available in the Red Charcoal colour. Three other colours are available as quantities last as special orders: Charcoal, Natural and Edger Charcoal.

The Shaw Brick team can help make your paver installation easier

Your paving stone project will be off to a great start when it is built on a foundation of Shaw Brick style, quality and expertise. Drop into a [Shaw Retail Centre](#) or one of our [independent dealers](#) to learn more about making your project be the best it can be.

This product may not be available at all locations, please check with your local Shaw Brick.
