For the look of dry-stacked stone in garden walls.
The LedgeWall garden wall system brings a distinctive, dry-stacked stone look to your landscape, perfect for homeowners who want their outdoor spaces to make a statement. Each 4″ block in the LedgeWall system is crafted to emulate three courses of irregularly-stacked, thinner wall stone, creating an eye-catching interplay of light and shadow for a warm, inviting effect. With multiple unique face patterns and a complementary cap unit, the LedgeWall system provides a polished finish to any project.

RECOMMENDED USE

Gardens

COLOUR

Chamois Charcoal

Natural Charcoal

TEXTURE

Slate
