

SIENAEDGE

Colour Options

EVENING OAK

LIGHT AND STORMY

SienaEdge is a complete segmental retaining wall system offering a linear modern aesthetic to any landscape project. The ideally sized block provides fast, efficient machine placed installation, while still offering a manageable weight for manual maneuvering if required.

SienaEdge eliminates complex estimations and ordering with the innovative multifunction block design, integrating standards & corners into the same block. The closed-end Standard Block is ideal for building corners, ending two sided seat walls, and is able to create a both vertical or battered walls, all with one block.

Modern Linear Aesthetic
Efficient Machine Installation
Ideal for Steps & Vertical Elements
