

## **TUMBLLED OLDSTONE, TERRASTONE & PORTSTONE**

### **The 'rough and tumble' country cousins of the Classic family**

Tumbled OldStone, TerraStone and PortStone Pavers are the 'rough and tumble' county cousins of the more refined, straight-edged Classic paving stones by the same names.

With a naturally-worn and slightly-rounded appearance, they bring old-world country charm to any paving stone project, be it a driveway, a terrace or a secluded garden walkway.

### **Three different shapes and sizes of paving stones**

These concrete pavers also come in three different shapes and sizes. Tumbled OldStone is a small rectangle, Tumbled TerraStone is a larger rectangle and Tumbled PortStone is square. All are also available in an 80 mm thickness by special order.

These pavers are available in a range of earth tones: Chamois Charcoal, Mocha Charcoal, and Red Charcoal (OldStone and PortStone only). In addition, we also offer a neutral Charcoal (OldStone and PortStone only) tone.

No matter which concrete pavers you select, rest assured that your project will be off to a great start when it is built on a foundation of Shaw Brick style, quality and expertise. Drop into a [Shaw Retail Centre](#) or one of our [independent dealers](#) to learn more about making your project be the best it can be.

*All colors may not be stocked at all locations, please check with your local Shaw Brick.*
